

# Infinidat FLX: Flexible CapEx and OpEx Pricing Designed to Fit Evolving Business Needs

**Infinidat FLX is an entirely new concept in delivering enterprise storage infrastructure and data protection-as-a-service at multi-petabyte scale.**

The FLX flexible consumption model is available across Infinidat's entire portfolio of products, including InfiniBox<sup>®</sup>, InfiniBox<sup>™</sup> SSA, and InfiniGuard<sup>®</sup>. With FLX pricing, you get the storage capacity you need — on-demand. Benefit from an all-inclusive subscription with pay-as-you-go scalability, hardware included for life, and an end to the risks and costs associated with data migrations.

## All-Inclusive Subscription

Infinidat conducts a rigorous analysis of your current and future capacity and performance requirements to configure your FLX solution. An all-inclusive subscription agreement covers all hardware, software licenses, warranties, monitoring, and support.

## Pay-As-You-Go Scalability

Monthly charges are based on provisioned capacity. If you are anticipating significant growth or variability in data consumption, Infinidat FLX offers the flexibility and agility to only pay for the capacity you use as you need it. Contact Infinidat sales for further program details and pricing.

## Enterprise Storage for a Broad Range of Mixed Application Workloads at Multi-Petabyte Scale

InfiniBox FLX delivers lightning-fast performance and multi-petabyte capacity for a broad range of mixed application workloads. InfiniBox SSA FLX offers ultra-high performance storage for the most intense workloads. Both solutions feature a 100% availability guarantee.

## Enterprise Data Protection-As-A-Service with Built-in Cyber Resilience Technologies and Unmatched Performance

InfiniGuard FLX offers unmatched backup and recovery performance, availability, and restore times. It is the optimal solution for all your modern data protection needs.

## The FLX subscription model includes:

- ▶ The capacity and capacity planning to meet your evolving needs
- ▶ Configuration of on-premises hardware and software
- ▶ 24x7 infrastructure management, monitoring, and global support
- ▶ Data migration, without risk, between FLX managed systems
- ▶ InfiniBox FLX and InfiniBox SSA FLX also feature a 100% data availability guarantee
