

Lightning-fast, petabyte-scale data protection-as-a-service

With InfiniGuard FLX®, you benefit from an all-inclusive subscription with pay-as-you-go (up or down) scalability, hardware included for life, and a 100% data availability guarantee. InfiniGuard FLX frees you from ever having to acquire or configure your data back-up and restore capacity up to multi-petabyte scale, and includes the unmatched performance, availability, restore times, and economic advantages of the market-leading InfiniGuard on-premises solution.

MARKET-LEADING DATA BACK-UP AND RESTORE-AS-A-SERVICE

InfiniGuard FLX is an entirely new concept in the delivery of data back-up and restore capacity for organizations requiring storage up to multi-petabyte scale. Until now, the faster-than-all-flash performance and industry-leading reliability and availability that made InfiniGuard an industry leader were only available via a capital expense (CapEx) purchase. With InfiniGuard FLX, you get the storage capacity you need—on-demand—through a subscription model that includes:

- ▶ The capacity and capacity planning to meet your evolving needs
- ▶ Configuration of InfiniGuard FLX on-premises hardware and software
- ▶ 24x7 infrastructure management, monitoring, and global support
- ▶ 100% availability guarantee

ALL-INCLUSIVE SUBSCRIPTION

Infinidat conducts a rigorous analysis of your current and future capacity and performance requirements in order to configure your InfiniGuard FLX solution. All hardware, software licenses, warranties, monitoring, and support are covered in an all-inclusive subscription agreement.

PAY-AS-YOU-GO (UP AND DOWN) SCALABILITY

InfiniGuard FLX enables you to pay as you go, up and down, with monthly charges based on provisioned capacity. If you are anticipating significant growth or variability in data consumption, InfiniGuard FLX offers the flexibility and agility to only pay for the capacity you use, as you need it.¹

COMPLETE REFRESH AVAILABLE EVERY THREE YEARS

Hardware and software refresh includes option to completely refresh your entire hardware software stack with the latest solutions every three years without downtime or migration risk.²

100% DATA AVAILABILITY GUARANTEE

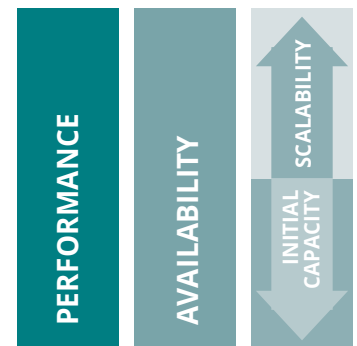

Infinidat is able to provide a 100% data availability guarantee³ based on our industry-leading track record of seven nines availability. Any data unavailability that impacts your business is remedied with a credit towards the next monthly invoice for the entire affected system.

1. Discounts available via capacity and/or term commitment. Contact your sales representative for details.

2. Hardware refresh may be scheduled or deferred at the customer's option. Restrictions may apply.

3. Contact your sales representative for details and applicable restrictions.

100%

InfiniGuard FLX provides you with the flexibility to pay only for the capacity you use, as you need it.
