Appendix A
Infinidat-Specific Purchase Models Terms and Conditions

A. Capacity On Demand Model Purchase

1. The Capacity on Demand (“COD”) model for the InfiniBox® and InfiniGuard® Products allows Purchaser to purchase a certain amount of capacity in accordance with End User’s capacity storage needs, and to be granted a License by Infinidat to use the specific capacity purchased. Accordingly, End User will allow Infinidat to remotely monitor the Billable Capacity levels daily by way of enabling the InfiniBox and InfiniGuard’s Call Home feature (described in Infinidat’s Documentation).

2. The Billable Capacity may be increased by providing Infinidat in advance with a Purchase Order for such capacity. In the event Purchaser fails to issue such prior Purchase Order to Infinidat, and the purchased capacity increases and exceeds the purchased capacity, such (additional) capacity will be charged for and paid in accordance with the then-current Quotation. Billable Capacity increases are charged on a monthly basis according to the highest-level Billable Capacity increase at any time occurring during such applicable month (the “Highest Watermark”). Infinidat will provide a Billable Capacity usage statement to Purchaser referencing the Billable Capacity increase (a “Usage Statement”) and a Purchase Order shall be issued to Infinidat within thirty (30) calendar days following the delivery of such Usage Statement (the “Purchase Order Period”). If a Purchase Order is not received by Infinidat within the Purchase Order Period, Infinidat will automatically issue a formal invoice for the capacity increase.

3. Any Billable Capacity increase charges for COD are made based on ten (10) terabyte increments, rounded up, for the InfiniBox Product, and fifty (50) terabyte increments for the InfiniGuard Product.

4. Billable Capacity increase payments do not extend any original warranty period or any purchased Support Services term. Failure to pay for any Billable Capacity increase during the Purchase Order Period will entitle Infinidat, in its sole discretion, to terminate the License to the InfiniBox and InfiniGuard, and pursue any remedy available in law or equity. Failure by Infinidat to provide a Usage Statement shall not negate any payment obligation arising hereunder.

5. Purchaser is not entitled to deductions or refunds in the event it decreases its Billable Capacity usage.

B. Infinidat FLX® Model

1. Purchaser may subscribe to use an InfiniBox or InfiniGuard Product under the Infinidat FLX model, which allows End User to use the Product in accordance with End User’s capacity storage needs. Accordingly, End User will allow Infinidat to remotely monitor the Billable Capacity levels daily by way of enabling the InfiniBox and InfiniGuard’s Call Home feature (described in Infinidat’s Documentation).

2. Under the FLX model, for the duration stated on the Quotation (the Committed Duration, “CD”), Purchaser commits to pay a monthly usage fee comprising of: (i) the Billable Capacity stated on the applicable Quotation (the Committed Capacity, “CC”), plus, if applicable, (ii) the Billable Capacity representing the additional usage exceeding the CC. The CC and CD together comprise the Committed Payment (“CP”).
3. Any Product capacity may be increased in any month, above the CC (a “Capacity Increase”). Any Capacity Increases are measured on a daily basis, to the nearest whole terabyte rounded up. Infinidat will provide a capacity usage statement referencing any Capacity Increase (a “Capacity Increase Statement”). Infinidat will automatically provide Purchaser with an invoice at the beginning of the month following any such Capacity Increase. Capacity Increases will be invoiced according to the price calculation as referenced in the applicable Quotation (an "Increase Payment"). Failure by Infinidat to provide a Capacity Increase Statement shall not negate any payment obligation arising hereunder.

4. Unless otherwise agreed in writing, Purchaser shall provide to Infinidat two Purchase Orders. One Purchase Order shall represent the entire CC amount. The second Purchase Order shall allow Infinidat to invoice against it for any Capacity Increases for the duration of the CD. Any failure of Purchaser to issue a Capacity Increase PO shall not preclude Infinidat from invoicing Purchaser for any Capacity Increases.

5. Upon the earlier of: (i) installation of the Product; or (ii) seven (7) calendar days after receipt of the Product, Infinidat shall invoice the CC monthly fee. Following the initial invoice, and at the beginning of every month for the duration of the CD, Infinidat will invoice Purchaser the CD monthly fee together with any Increase Payments (as defined below).

6. Payment is due within thirty (30) days from the date of Infinidat’s invoice.

7. The CD shall be automatically renewed for an additional twelve (12) month duration (a “CD Renewal”) at the conclusion of the applicable CD unless Purchaser has provided Infinidat with written notice no later than sixty (60) days prior to the conclusion of the CD of its intention to not renew the CD. The CD shall be deemed automatically so renewed if the Product is not returned pursuant to the requirements described herein. If a CD Renewal occurs under the terms of this paragraph, the CP amount for the CD Renewal shall automatically increase by ten percent (10%) per terabyte per month from the original terabyte per month amount on the applicable Quotation and Purchaser agrees to immediately issue a new Purchase Order representing the entire CD Renewal amount. Infinidat may at any time on three (3) month’s written notice, notify Purchaser (as applicable) that it wishes to end any CD Renewal and have the Product returned. Purchaser shall ensure that upon the conclusion of such three-month period, it shall promptly facilitate the return of the Product in the same manner as referenced below. Infinidat shall at the start of every month automatically invoice Purchaser accordingly.

8. At the conclusion of the CD or any CD Renewal, End User or Distributor/Reseller, as applicable, shall ensure that End User assists Infinidat with all logistics (including but not limited to entry onto End User’s premises) to coordinate the prompt return of the Product to Infinidat in the same condition as it was originally received, subject to any minor and expected wear and tear. Purchaser shall bear the expense of returning the Product to Infinidat. Failure to do so shall entitle Infinidat to take enforcement steps to ensure the safe return of its property independently or to invoice for the immediate payment of the entire purchase price of the Product. Equally, in the event the Product is returned damaged, Purchaser shall be obligated to make prompt payment of such sum as represents the cost of restoring the Product to “as new” condition. End User is solely responsible for the removal/migration of any data stored on the Product at the time of return.

9. These FLX Model terms do not convey to Purchaser an interest in or to the Product, but only a limited revocable right of use as described herein. All right, title and interest in and to the Product is and will remain with Infinidat. Accordingly, Purchaser agrees to be fully liable for any damage to the Product (other than normal wear and tear) throughout the duration of the CD or any CD renewal and for any
period thereafter during which the Product is under the possession, custody or control of Purchaser, and until such time as the Product is duly returned to Infinidat and received by Infinidat in accordance with the terms set forth herein and to Infinidat’s satisfaction. During such period, Purchaser shall treat the Product with the same degree of care as with its own similar property and in no event less than a reasonable degree of care, including in terms of security, insurance, and other protective treatments.

10. As of delivery of the Product on Site and throughout the duration of the CD or any CD renewal, and for any period thereafter during which the Product is under the possession, custody or control of End User, End User shall maintain, at minimum, in effect, a Property All Risks insurance policy (the “Policy”) against any loss or damage including but not limited to fire, smoke, soot, explosion, theft, burglary, malicious damage, water damage, natural hazards, and earthquake whilst the Product is in transit, loading, unloading, at rest or operation. End User’s Policy shall include any property in the ownership, care, custody or control of Purchaser, all at full reinstatement value including the Product. Sums insured shall always reflect the full replacement value of the property as new. The Policy shall be maintained solely at End User’s expense. All insurer’s rights of subrogation against Infinidat for losses or claims arising out of the Product shall be waived under the Policy or any other complementary insurance policy End User may take. The Policy shall contain a primary and non-contributory clause to the benefit of Infinidat and its insurance company. The Policy shall not be cancelled unless Infinidat is given written notice of said cancellation at least thirty (30) days in advance and said Policy is replaced by similar policy with similar coverage levels. End User shall provide a certificate of insurance evidencing said Policy at Infinidat’s request.

11. End User may be entitled to an Infinidat Hardware refresh ("Refresh") subject to the following conditions:
   i. Completion of a minimum CD of three (3) years (“Refresh Eligibility Duration”); and
   ii. At least seventy percent (70%) of any eligible Product has been consistently used by End User (the “Refresh Minimum”) for a duration of at least a twelve-month period prior to any Refresh; and
   iii. Purchaser shall issue a Purchase Order for CD Renewal of at least an additional three (3) years.
   iv. Purchaser shall notify Infinidat at least sixty (60) days in advance and in writing of its request to exercise the Refresh right.

12. Any Refresh shall be for identical, equivalent, or improved sized and/or performance Infinidat Hardware Product as solely determined by Infinidat. If applicable, Infinidat may, acting in its discretion, provide a larger capacity Infinidat Product at such time. Infinidat shall bear the expense of returning Products related to any Refresh. Entitlement to a Refresh is conditioned upon full compliance with these Terms, including the EULA.

Infinidat Terms and Conditions - Specific Features

A. InfiniVerse® Terms and Conditions (“InfiniVerse Terms”)

1. End User, subject to prior written request and registration, may receive predictive analytics, monitoring, and reporting as an Infinidat service (“InfiniVerse”) as part of its purchase of Infinidat’s Products, provided that such End User is under a current contract for Support Services with respect to the specific Product to which the InfiniVerse is requested to be provided.

2. InfiniVerse service shall only be provided if the Product’s Call Home feature is enabled by End User.

3. End User agrees that collection and transmission of its Product information is necessary to enable InfiniVerse and may be subject to third party terms and conditions. In such cases, separate terms and conditions with such third party in addition to the Terms herein may apply to the InfiniVerse, and Infinidat accepts no liability or responsibility with respect to any such third party’s terms and conditions or terms of use. Such collected information shall be used in accordance with applicable laws and regulations. For the avoidance of doubt, Infinidat retains all right, title and interest to the referenced information collected.

4. Infinidat does not accept any liability for any issues deriving from or related to inaccurate or undelivered information.

B. Host PowerTools; InfiniMetrics®; InfiniSDK

Appendix C

Infinidat Additional Services

A. Professional Services ("PS")

1. Infinidat may, upon request of End User, agree to provide End User with certain professional, technical or educational services subject to the execution of a statement of work ("SOW").

2. PS provided may be chargeable on an hourly basis, in which case the PS shall be used in the manner only as agreed specifically between Infinidat and Purchaser in an applicable executed SOW.

3. Alternatively, PS provided by Infinidat may be for an agreed-upon fixed price, in which case payment shall be made in advance according to the applicable Quotation. The description of the PS, including any deliverables, and the manner and timing of the PS shall be as stated in the applicable SOW.

B. Data Migration Services ("DMS")

Infinidat may, upon written request of End User, agree to provide End User with certain capabilities to enable the migration of End User data either from or to an Infinidat Product. The quantity of data to be transferred and the details concerning the timing and activities for such migration shall be as drafted in accordance with the terms of a specific SOW executed by the Parties. Exceeding time or data limits in the SOW may require additional payments to be made by End User. End User is obligated to back up all data, software, and programs stored on the Product prior to any migration. Infinidat shall not be liable for the loss of any End User’s data stored on or migrated from the Product. To enable DMS, End User must provide Infinidat authorized personnel with access, including virtual and onsite physical access, to its premises and the Product. For the avoidance of doubt, Infinidat shall have no liability towards Purchaser for any unused DMS or data not migrated within the agreed-upon SOW term.

C. Deinstallation and Reinstallation Services

In the event Purchaser and Infinidat agree in writing via Quotation to a relocation of a Product from its original installation site to a different site, Infinidat shall assist with the relocation by deinstalling, and reinstalling the Product in accordance with the following terms:

1. All relevant information concerning the services fees, origin and destination Sites, including any ISS, if required in Infinidat’s sole discretion, target relocation date, key personnel contacts, and expiry of the services term shall be included in any SOW for deinstallation and relocation services with Infinidat-provided transportation.

2. To assist with the relocation of the Product, the following steps shall be performed by Infinidat or End User, as applicable:

Step 1: Deinstallation:

(i) Perform a media sanitization of the Product array pursuant to the standards for secure erasure and media sanitization set forth by the National Institute for Standards and Technology (an "NIST Standard Erasure") (if explicitly agreed to via Quotation). (Infinidat)

(ii) Power off the Product and unplug all power cords and other Product cables. (End User)

(iii) Unload and label all drives with pre-provided labels to mark locations in the Product. (Infinidat)
Step 2: Transportation:

(i) Move the Product to the loading dock, crate the Product and drive boxes, and load the Product and drive boxes onto a moving vehicle. (End User)
(ii) Transport the Product to the destination location. (End User)
(iii) Uncrate the Product and drive boxes, move the Product and drive boxes to final location within data center. (End User)

Step 3: Reinstallation:

(i) Unpack and install drives into the Product as labeled at the origin location. (Infinidat)
(ii) Plug in all power cords and other Product cables as directed by Infinidat personnel. (End User)

(iv) Perform health checks. (Infinidat)
(v) Validate remote support. (Infinidat)
(vi) Update inventory application for the new site. (Infinidat)
(vii) Establish support call tree structure and new site contacts. (Infinidat)

3. In addition, End User shall:

(i) Develop and own the overall relocation plan and schedule;
(ii) Maintain responsibility for overall Services management during the service term, negotiating application change windows, remediating hosts, administering storage area networks, and make source storage array and host configuration changes in all power cords and other Product cables as directed by Infinidat personnel;

(iv) Procure and run fiber channel, network and power cables required to connect the Product, and secure such connections;
(v) Manage all change control windows and communication with End User’s staff, internal users, and application owners;
(vi) Perform preparatory tasks including: i) completing a full backup of all data on the Product that is to be relocated prior to the relocation; ii) storage area network zoning; (iii) storage array mapping/masking changes; and iv) host rescanning; and application validation;
(vii) Manage all processes including those related to data availability, integrity, recover, security, and service level agreements;
(viii) Perform cutover, including, but not limited to, remediating the operating systems, host bus adapter driver, and multi-pathing software on the migrated servers to a version supported by the Product, if required; and
(ix) Maintain responsibility for all data on the Product that is to be relocated, and maintain responsibility for any data loss or corruption resulting from the relocation.

4. The deinstallation and reinstallation services are based on the following assumptions:
(i) End User has sufficient data center resources, including rack space, power, LAN, and storage area network ports (on the same core switches as the source arrays) to connect the Product;

(ii) End User will provide Infinidat personnel with any access or resource needed to support the Relocation, such as: badge, laptop use, adequate on-site workspace (i.e., desk, internet, telephone);

(iii) Host hardware and software are validated to be at a supported level with the Systems prior to the Relocation; and

(iv) The Relocation services depend upon End User’s cooperation with Infinidat’s reasonable instructions related to the Relocation, and the accuracy and completeness of any information provided to Infinidat.

5. Infinidat and End User shall specify key personnel contacts responsible for ensuring that the Parties maintain adequate communication and cooperation in order to ensure the timely and efficient delivery of deinstallation and reinstallation services.

6. Infinidat shall not, as from the date of the relocation (or at any time of any preparation preceding the same) be obligated to perform Support Services or meet any service level targets for the relocated Product.

7. Infinidat shall not be liable in any manner for any incomplete act, or resultant issues, deriving from or relating to the deinstallation and reinstallation services. End User assumes all risks related to the relocation of the Product, and Infinidat provides no representations or warranty regarding the services. End User agrees that any relocation activities undertaken without Infinidat’s prior written consent shall invalidate any existing warranty on the Product.

8. End User shall indemnify Infinidat from and against any and all damages, liability, claims, suits, losses, costs and legal fees caused by, arising out of, resulting from, or related to damages incurred to the Product as a result of the deinstallation and reinstallation services.

9. End User shall maintain full responsibility for the Product during the relocation. End User shall maintain adequate insurance (i.e., property insurance covering the full replacement cost of the Systems) to cover any damage to the Product during the relocation, and shall present a certificate of insurance evidencing such coverage prior to the relocation upon Infinidat’s request.

10. INFINIDAT SHALL HAVE NO LIABILITY FOR (i) ANY INDIRECT, SPECIAL, CONSEQUENTIAL, OR PUNITIVE DAMAGES ARISING FROM THE RELOCATION; (ii) ANY THIRD-PARTY ACTIVITIES; (iii) MISUSE OF ANY EQUIPMENT OR UNDERTAKING ANY ACTS NOT APPROVED BY INFINIDAT, INCLUDING RELOCATION TO AN UNAPPROVED SITE; AND (iv) END USER OR ANY THIRD PARTY NOT FULFILLING DESIGNATED RESPONSIBILITIES. INFINIDAT SHALL HAVE NO LIABILITY FOR LOSS OF, DAMAGE TO, DESTRUCTION OF, OR RECOVERY (OR LACK OF ABILITY TO RECOVER) OF DATA OR PROGRAMS ARISING OUT OF THE SERVICES OR SUPPORT OR ANY ACT OR OMISSION, INCLUDING NEGLIGENT ACTS OR OMISSIONS, BY INFINIDAT OR ANY THIRD-PARTY SERVICE PROVIDER. IF APPLICABLE, END USER IS RESPONSIBLE FOR BACKING UP ALL DATA FROM THE PRODUCT PRIOR TO INFINIDAT PERFORMING AN NIST STANDARD ERASURE OF THE ARRAY TO THE EXTENT END USER NEEDS OR DESIRES TO RETAIN SUCH DATA ELSEWHERE.
D. Data Sanitization

1. Infinidat may, upon written request by an authorized representative of End User, agree to provide End User with certain data sanitization services to enable the sanitization of End User’s data, as stored on certain End User drives. Such requesting representative shall be deemed for all purposes and means, a duly authorized representative of End User with the right, power and authority to legally request the same.

2. Data sanitization services shall be undertaken in accordance with the National Institute of Standards and Technology (NIST) procedures and subject to applicable laws.

3. Data sanitization services are conditioned upon End User providing Infinidat with full and complete remote access to the applicable Product components. Data sanitization services may not be possible with respect to all drives, including local End User drives. End User understands and agrees that Infinidat shall not be liable for the loss of any End User data stored on End User’s drives and that any sanitized data cannot be retrieved. Any End User data to be sanitized hereunder shall first be backed up by End User, to the extent End User needs or desires to retain it elsewhere.
Appendix D
Optional Infinidat and Third-Party Add-Ons

A. Infinidat Add Ons

1. **Acceleration Kit.** Purchaser may acquire from Infinidat an Acceleration Kit, at the pricing agreed to in the applicable Quotation. The Acceleration Kit may not be resold or utilized for anything other than its intended purpose. Acceleration Kits will only be effective if installed and utilized in the correct operating environment.

2. **Disk Retention.** Purchaser may request from Infinidat Disk Retention and accordingly will not return unused or replaced disks to Infinidat, for some or all of End User’s disks, at the pricing agreed to in the applicable Quotation. As concerns Disk Retention, it is confirmed and agreed that upon payment to Infinidat, any disks retained are the sole responsibility of End User and Infinidat retains no title, risk of loss or other liability in respect thereof including as concerns the disk itself or the data thereupon. It is confirmed and agreed that such disks are not to be resold by End User or any third party and not to be utilized further on any Infinidat Product. Any retained disks are not covered under the Support Terms and/or warranties and Infinidat takes no responsibility for their continued use or functionality in any manner.

B. Third-Party Add-Ons

Any Third-Party Products are provided “as-is” without Infinidat warranty of any kind, either expressed or implied. Purchaser acknowledges that no representation has been made by Infinidat as to the fitness of the Third-Party Products for End User’s intended purpose.
Appendix E

Non-Standard Installation; Use of Third-Party Equipment

The terms of this Appendix E (Non-Standard Installation; Use of Third-Party Equipment) modify the Terms as follows in the event Purchaser requests and Infinidat agrees in writing (via Quotation or otherwise) to either: (A) install the Product in deviation from Infinidat’s standard installation requirements (“Non-Standard Installation”), or (B) install the Product using any of the following components not provided by Infinidat (“Third-Party Equipment”): (i) End User’s server rack, including any server rack which (a) contains any non-Infinidat product, (b) shares a power source with any non-Infinidat product, (c) utilizes a cooling method other than Infinidat’s, or (d) splits the Infinidat components onto adjacent server racks; (ii) external power distribution units, including power distribution units sharing a power source with any non-Infinidat products; (iii) extension power cables connected to such external power distribution units; or (iv) any requested Third-Party Equipment deemed in Infinidat’s sole discretion to impact the standard installation of the Product:

1. All capitalized terms used herein without definition shall have the meaning ascribed to them in Section 1 (Definitions) of the Terms. In the event of any conflict between the terms of this Appendix E and the Terms, the terms of this Appendix E shall prevail.

2. The definition of Hardware in the Section 1 (Definitions) of the Terms shall be amended to include the following at the end of the sentence: “but shall specifically exclude Third-Party Equipment”.

3. Section 5.1 (Hardware Warranty) of the Terms shall be amended to include the following at the end of the first sentence: “it being understood that such Hardware does not include Third-Party Equipment, and that to the extent the use by Purchaser of Third-Party Equipment affects the Hardware specifications and accordingly Infinidat’s compliance with this Section and with said specifications, the Hardware Warranty shall not apply.”

4. Section 5.4 (Hardware Warranty) of the Terms shall be amended to include the following at the end: “or (vii) damage caused or repairs, replacements or fixes required to be made as a result of the use by Purchaser of Third-Party Equipment with the Infinidat Product and/or a Non-Standard Installation.”

5. Section 9 (Indemnification) of the Terms shall be amended to include the following at the end of the paragraph: “Any reference to Hardware as set forth in this Section (Indemnification) shall exclude Third-Party Equipment.”

6. Section 10 (Limitation of Liability) of the Terms shall be amended to add the following as a new paragraph: “Infinidat shall have no liability under this Section 10 (Limitation of Liability) or otherwise for any claim arising from or in any way related to use of Third-Party Equipment with Infinidat’s Product and or to a Non-Standard Installation. In respect of the same, liability rests solely with Purchaser.”

7. The following shall be added as a new paragraph to the end of Section 13 (Miscellaneous):

Purchaser agrees, confirms, and understands the following terms concerning Purchaser’s use of Third-Party Equipment in connection with the Product and/or a Non-Standard Installation:

   i) Purchaser understands that the use of Third-Party Equipment and/or a Non-Standard Installation may impact the flow of electrical power to the Product. Full
responsibility for power supply to the Product is with Purchaser at all times, and, even if Infinidat becomes aware of power supply issues, Infinidat shall have no obligation to action, resolve or notify Purchaser of the same.

ii) Any damage caused to the Product, physically or operationally, by the use of Third-Party Equipment or due to a Non-Standard Installation is the responsibility of Purchaser. Infinidat is not obligated to provide support coverage, or to repair or replace the Product, in the event of such damages occur, even if the Product is on active support.

iii) Infinidat may not have the ability to remotely power up or down the Product even if the same is required for the correct operation of the Product. Infinidat will not be responsible for the Product not operating in such circumstances.

iv) Certain services related to Third-Party Equipment may not be provided to Purchaser, including, but not limited to the following: certain product tests, power consumption measurement, remote system power on or off, clearance of system messages by Infinidat (as they refer directly or indirectly to power), system temperature control, and any services related to the Product that are impacted by Third-Party Equipment as determined by Infinidat in its sole discretion. Infinidat shall not be responsible for any damages resulting from the lack of such services being provided to Purchaser.

8. Section 3.1 (Product Description) of the Support Services Terms and Conditions shall be amended to read as follows: “**Hardware**” means the Infinidat “InfiniBox”, including firmware components contained within the InfiniBox but specifically excluding any Third-Party Equipment.”

9. Except as modified in this Appendix E, all Terms shall remain in full force and effect.
