Appendix A
Infinidat® Specific Purchase Models Terms and Conditions

A. Capacity On Demand Model Purchase

1. Purchaser may purchase a “Capacity on Demand” ("COD") model with respect to InfiniBox® and InfiniGuard® Products, which allows Purchaser to purchase a certain amount of capacity in accordance with End User’s capacity storage needs and to be granted a License by Infinidat to use the specific capacity purchased. Accordingly, End User will allow Infinidat to remotely monitor the Effective Capacity levels daily by way of enabling the InfiniBox® and InfiniGuard®’s call home feature.

2. Any Effective Capacity may be increased by providing Infinidat in advance with a Purchase Order for such capacity. In the event Purchaser fails to issue such prior Purchase Order to Infinidat, and whereby the purchased Effective Capacity increases and exceeds the initial purchased Effective Capacity or any capacity previously purchased, such (additional) capacity will be charged for and paid in accordance with the then current Quotation. Effective Capacity increases are charged on a monthly basis according to the highest-level Effective Capacity increase at any time occurring during such applicable month ("Highest Watermark"). Infinidat will provide an Effective Capacity usage statement to Purchaser referencing the Effective Capacity increase ("Statement") and a Purchase Order shall be issued to Infinidat within thirty (30) calendar days following such Statement (the "Purchase Order Period"). If a Purchase Order is not received by Infinidat within the Purchase Order Period, Infinidat will automatically issue a formal invoice for the capacity increase.

3. Any Effective Capacity increase charges for COD are made based on ten (10) Terabyte increments, rounded-up.

4. Effective Capacity increase payments do not extend any original Warranty Period or any purchased Support Services period. Failure to pay any capacity increase during the Purchase Order Period will entitle Infinidat, in its sole discretion, to terminate any License rights to the InfiniBox® and InfiniGuard®, and pursue any remedy available to it in law or equity. Failure by Infinidat to provide a Statement shall not negate any payment obligation arising hereunder.

5. Purchaser is not entitled to deductions or refunds in the event it decreases its Effective Capacity usage.

B. Infinidat FLX® Model Purchase

1. In accordance with the “FLX®” model Purchaser commits to pay monthly according to provisioned capacity, by way of a Minimum Monthly Commitment ("MMC") payment. Accordingly, End User will allow Infinidat to remotely monitor the Effective Capacity levels daily by way of enabling the InfiniBox® and InfiniGuard®’s call home feature.

2. Notwithstanding anything herein to the contrary, in no event with this Model purchase will title to any Product transfer to the Purchaser. Failure to pay any amounts due shall entitle Infinidat to reclaim its possession of the Product.

3. Purchaser’s is expected, upon shipment of the Product(s) to End User, and subsequently the receipt of an invoice from Infinidat, to provide a singular Purchase Order representing the entire MMC amount to be made over the full number of months in respect of which the MMC is payable (the “MMC Duration”) and to make payment at such time for the first month of MMC.

4. Notwithstanding the foregoing, at the beginning of every month, Infinidat will invoice Purchaser, as applicable, in respect of the singular MMC due for the then commencing period of the MMC Duration together with any increase payments (there is no requirement for an additional Purchase Order).

5. Any Product capacity may be increased in any month, beyond the MMC, during the MMC Duration (an “MMC Increase”). Upon any occurrence of an MMC Increase, Infinidat will automatically provide
Purchaser with an invoice at the beginning of the month following any such MMC Increase. MMC Increases will be invoiced according to the price calculation as referenced in the applicable Quotation.

6. Any increases are measured on a daily basis, and calculated according to said usage measurements during said month. Payment shall be undertaken in accordance with the terms of the applicable invoice (an "Increase Payment").

7. Infinidat will provide a capacity usage statement referencing any MMC Increase (a "Statement") accompanied by a formally issued invoice for the Increase Payment deriving therefrom. Failure by Infinidat to provide a Statement shall not negate any payment obligation arising hereunder.

8. At the conclusion of the MMC Duration, End User shall ensure, or Distributor/Reseller shall procure that End User assists Infinidat with all logistics (including but not limited to entry onto End User’s premises) to co-ordinate the prompt return of the Product(s) to Infinidat in the same condition as they were originally received, subject to any minor and expected wear and tear. Failure to do so shall entitle Infinidat to take enforcement steps to ensure the safe return of its property independently or to invoice for the immediate payment of the entire purchase price of the Product. Equally, in the event the Product is returned damaged, Purchaser shall be obligated to make prompt payment of such sum as represents the cost of restoring the Product to “as new” condition. End User is solely responsible for the removal/migration off of any data stored on the Product at the time of return.

9. As an alternative to end of MMC Duration return, as referenced above, the MMC Duration may be extended by Purchaser, (and will be deemed automatically so extended if the Product is not returned), (a “MMC Duration Extension”), and the Licenses granted hereunder renewed (together with the Support period), by virtue of payment, by Purchaser of continued monthly payments in an amount equivalent to the monthly MMC amount (as paid during the MMC Duration), together with any Increase Payment, (as also reflected within a provided Statement).

10. Infinidat shall at the start of every month automatically invoice the Purchaser accordingly. Any MMC Duration Extension shall not require a new Purchase Order. The foregoing shall not change the ownership of the Product which such ownership shall remain at all times with Infinidat.

11. Infinidat may at any time on three (3) month’s written notice, notify Purchaser (as applicable) that it wishes to end the MMC Duration Extension and have the Product returned. Purchaser shall ensure that upon the conclusion of such three-month period, it shall promptly facilitate the return of the Product in the same manner as referenced above.

12. Notwithstanding anything to the contrary, in the event that any Infinibox FLX® and InfiniGuard FLX®’s Product has a stated MMC of zero, it is required that the End User utilizes at least twenty-five per cent (25%) of the Product’s available Effective Capacity (the “Commitment Percentage”). Should such Product usage, at any time after the first three (3) months following installation (including as applicable of a Refresh, as such term in defined below), fall below the Commitment Percentage and not be remedied within a period of thirty (30) calendar days back to the Commitment Percentage (as determined by Infinidat), Infinidat may at any such time, and at its sole election, refuse additional hardware updates, recover possession of the Product and terminate any applicable contract and License thereto, and End User shall facilitate the same.

13. End User may be entitled to an Infinidat Hardware Refresh (“Refresh”) subject to the following conditions:
   a) Completion of a minimum three (3) years period utilizing Infinibox FLX® or InfiniGuard FLX® following installation (“ROP”); and
   b) At least fifty per cent (50%) of any “F6000 Series” Infinibox FLX® or at least seventy (70%) on any “F4000 Series” Infinibox FLX® or at least seventy (70%) on InfiniGuard FLX® products, of the Effective Capacity (in respect of InfiniBox FLX® Products) or physical capacity (in respect of

©2020 All rights reserved to Infinidat.
of InfiniGuard FLX® products) has been consistently used by End User (the “Refresh Minimum”) for a duration of one-year prior to any Refresh.

c) Purchaser shall notify Infinidat in advance and in writing of its request to exercise the Refresh right.

14. The option to undertake a Refresh shall renew subject to these terms and following the completion of any additional ROP from the date of a previous Refresh.
